Dr. Jacque Carter, President
Doane University
1014 Boswell
Crete, NE 68333

Dear Dr. Carter:

By May 15 of every year, the Certification Official from each recognized Nebraska Institution of Higher Education (IHE) must submit an application form which provides information regarding all of the specific endorsement programs offered within the institution's Teacher Education preparation program to the Nebraska Department of Education. Submitted information is then compiled and presented to the Nebraska State Board of Education for formal approval.

It is my pleasure to inform you that all endorsement programs within the Doane University Teacher Education Program were approved by the Nebraska State Board of Education on August 4, 2017. A letter of approval along with the original application form is being sent to your institution's certification official. In addition, the chair of teacher education will receive a copy of the approved application.

A list of all educator preparation programs offered in Nebraska-approved institutions is compiled based on application information submitted by the IHEs. This report, *2017-2018 Teacher Preparation Programs in Nebraska Colleges and Universities*, is available at:

<https://www.education.ne.gov/EducatorPrep/IHE/ProgramApproval/BoardApproval-20004/BoardApprovalReport-1718.pdf>.

We appreciate your support of teacher education programs, as they prepare future educators for Nebraska schools. If you have any questions, please do not hesitate to contact me at 402.471.2405 or sharon.katt@nebraska.gov.

With best regards,

Sharon Katt, Administrator
Adult Program Services
