Exec Reports:

- **Tyler:**
 - Introduction of 10, 12 and 20, accounts
 - New budgeting
 - 10 accounts are money that you as a group fundraise and put into this account

- 12 accounts are where student allocation money goes. All spending out of this account has to be approved by Student Congress.
 - 20 accounts are money gained through the university (Doane Day of Giving, etc.)
 - Student Leader Luncheon will expand more on this.
 - Greek Organizations only have 10 and 20 accounts because they are not eligible for Student Congress Allocations.
 - When students buy things and turn in receipts, they must specify which account the money needs to come out of.
 - This is so organizations can keep all the money they fundraise and keep allocations separate.
 - Gift for Business Office for redoing this process:
 - Charcuterie board
 - Cater breakfast on a Friday morning
 - New Budget Google Sheet will be given to each organization so they can track the money in each account.
